Under the slogan (space of the new Iraq ... an opportunity for the future)

Iraq progressive company for exhibitions and conferences will prepared

Exhibition and conference of telecommunications, electronics, audio and video channels and media

"Conference of Communications, Electronics and Audio, Video and Media Channels"

from 13 to 14 June 2019

Conclusion:

1- The objectives of the conference

Our conference seeks to discuss in depth the reality of regulatory frameworks for the new Iraq market in the field of telecommunications, electronics, and media investments in the field of channels, audio stations, video and new media.

Also, Discussing the legal and regulatory framework of Iraq's media space, examining opportunities and challenges in the telecommunications and electronics sector has become one of the strategic motives of the business environment and the search for new partners in the Iraqi market.

The measurement of the future of the Iraqi market has become a factor of payment and motivation to increase the volume of investment and business in Iraq.
